<b>Sea-level pressure</b>	1011.3mbs/ 29.86inHg		1013mbs	

REMARKS: Climatological normal– 30-year average (1991-2020)

The rainfall total was slightly below normal. Daytime and nighttime temperatures were warmer than usual. Tropical waves, high-pressure system, unstable conditions and localised effects dominated the weather conditions. Winds were generally light with occasional gusts. Thunderstorms were recorded on 9 days.
